

# JACUMBA COMMUNITY SERVICES DISTRICT

## DISTRICT BACKGROUND

The Jacumba Community Services District (CSD) provides potable water and park and recreation services within the unincorporated east-county community of Jacumba.

The Jacumba CSD was formed in 1985 to assume ownership of a private water company. The CSD was also authorized to provide park and recreation services within the district's approximate 423-acre boundary.

The CSD pumps local groundwater from four district-owned wells for distribution to 230 residential connections. The water system includes two treated-water reservoirs with an aggregate capacity of 638,000 gallons.

The Jacumba CSD does not receive property tax revenue. Operating costs for water services are funded entirely by water fees. Park and recreation services are provided by community volunteers and funded by donations and volunteer fundraising efforts.

LAFCO approved a sphere-of-influence for the Jacumba CSD in 1985 that is coterminous with the district boundary. The sphere was last affirmed in 2013.
