INDEPENDENT AUDITORS' REPORT

Board of Directors San Miguel Consolidated Fire Protection District Spring Valley, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund of San Miguel Consolidated Fire Protection District, as of and for the fiscal year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the San Miguel Consolidated Fire Protection District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITORS' REPORT Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the San Miguel Consolidated Fire Protection District, as of June 30, 2013, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 8 and 32 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2013, on our consideration of the San Miguel Consolidated Fire Protection District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering San Miguel Consolidated Fire Protection District's internal control over financial reporting and compliance.

Hosaka, Rotherham & Company

San Diego, California December 19, 2013

As management of the San Miguel Consolidated Fire Protection District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2013. We encourage readers to consider the information presented here in conjunction with the District's basic financial statements, which begin immediately following this analysis. This annual financial report consists of two main parts (1) Management's Discussion and Analysis and, (2) Basic Financial Statements.

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. GASB No. 34 established financial reporting standards for state and local governments, including cities, villages and special purpose governments.

FINANCIAL HIGHLIGHTS

- The District's ending total net position balance was \$7,864,823.
- The change in net position for the year was an increase of \$453,823.
- The District had an excess of revenues over expenditures in the General Fund (before transfers) in the amount of \$404,226 in the current year compared to \$688,868 in the previous year.
- This year the District had no additions to capital assets compared to \$31,805 additions in the previous year.
- The District's General Fund Budget for this year showed an excess of revenues over expenditures of \$150,306 (before transfers) compared to the actual amount of \$404,226 (before transfers).

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's audit report is comprised of four components: 1) financial statements and notes, 2) supplementary information, 3) reports on compliance and internal control, and 4) findings and recommendations.

Basic financial statements. The basic financial statements include government-wide financial statements and fund statements. The two sets of statements are tied together by reconciliations showing why they differ.

The District as a whole is reported in the government-wide statements and uses accounting methods similar to those used by companies in the private sector.

More detailed information about the District's most significant funds – not the District as a whole is provided in the fund financial statements. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

The Statement of Net Position, a government-wide statement, presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

OVERVIEW OF FINANCIAL STATEMENTS (CONTINUED)

The Statement of Activities, a government-wide statement, presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The Balance Sheet for governmental funds presents financial information by fund types showing money left at year-end available for spending.

The Statement of Revenues, Expenditures and Changes in Fund Balances for all governmental fund types focuses on how money flows into and out of the various funds.

The Notes to the Basic Financial Statements are included to provide more detailed data and explain some of the information in the statements.

The Supplementary Information gives an overview of the operations of the District and the governing body and outlines assessed property valuation.

Reports on Compliance and Internal Control encompass the independent auditor's reports showing compliance with Government Auditing Standards and provides additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The Findings and Recommendations section notes material weaknesses in the system and recommendations.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The largest portion of the District's net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvement, vehicles and furniture and equipment) less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its constituents; consequently, these assets are not available for future spending.

Statement of Net Position

To begin our analysis, a summary of the District's Statement of Net Position is presented in Table 1 below for the current year and the prior year.

Net position may serve over time, as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$7,864,823 as of June 30, 2013. The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and disposal of capital assets, and the depreciation of capital assets.

TABLE 1

Total net position	\$ 7,772,032	\$	7,623,061	\$ 148,971	2.0%

Statement of Activities

- The District's total revenues for the fiscal year ended June 30, 2013, excluding inter-fund transfers, decreased to \$18,823,075. This was due primarily to a decrease in grants for the Training Facility Project and the Urban Areas Security Initiative Training Coordinator position.
- The District's total expenses decreased to \$18,369,252.
- The change in net position was an increase of \$453,823.

The following table presents a summary of the Statement of Activities for the fiscal year ended June 30, 2013.

TABLE 2
Condensed Statement of Activities

	_	2013	 2012		\$ Change	% Change

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Significant Changes in Individual Funds

Although the District was not able to contribute to reserve accounts for future vehicle purchases, facility upgrades and funding the liability for uncompensated absence, a total of \$3,353,703 was paid out in leave credit withdrawals and the payments of long-term debt.

TABLE 3
Comparison of Fund Balances

	2013	 2012	\$ Change	% Change
General Fund	\$ 752,755	\$ 435,143	\$ 317,612	73.0%
Capital Reserve Fund	944,620	941,974	2,646	0.3%
Uncompensated Leave Fund	104,638	406,456	(301,818)	-74.3%
Vehicle Replacement Fund	718,124	1,712,277	(994,153)	-58.1%

Total fund balances	\$ 2,665,246	\$ 3,673,078	\$ (1,007,832)	-27.4%

General Fund Budgetary Highlights

The General Fund had the following excess of expenditures over appropriations (instances where actual amounts exceeded budgeted amounts) in the following individual categories:

TABLE 4
Excess Expenditures over Appropriations

Salaries	\$ 26,419	Maintenance - Fleet	\$ 62,499
Communication services - Equipment	\$ 3,010	Publication and media	\$ 383
Grant expenditures	\$ 31,989	Utilities	\$ 9,387
Insurance	\$ 163,241		

The District's General Fund Budget for this year showed an excess of revenues over expenditures of \$150,306 (before transfers) compared to the actual amount of \$404,226 (before transfers).

CAPITAL ASSET AND DEBT ADMINISTRATION

Long-Term Debt

The District has long-term debt in the amount of \$15,177,749. \$5,230,000 of this debt is for a capital lease and revenue bonds for the headquarters complex and station 22. \$9,799,000 is for Public Property Financing as the result of funding the District's CalPERS Side Fund. The additional \$148,749 is for annual leave and sick leave earnings to be paid out to employees when they leave the District.

Capital Assets

There was an overall decrease in capital assets of \$731,283, due to the continual depreciation of assets.

FACTORS BEARING ON THE DISTRICT'S FUTURE

As a result of the transition to CAL FIRE on December 31, 2012, the District's financial condition is improving. The first six months of the cooperative agreement came in under budget greater than the anticipated 10% savings.

SAN MIGUEL CONSOLIDATED FIRE PROTECTION DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2013

Net change in fund balances - total governmental funds	\$ (1,007,832)
Amounts reported for governmental activities in the Statement of Activities (SOA) are different because:	
The depreciation of capital assets used in governmental activities is not reported in the funds.	(731,283)
Long-term prepayments of the CalPERS Side Fund are amortized in the SOA but not in the funds.	(1,253,556)
Repayment of bond principal is an expenditure in the funds but is not an expense in the SOA.	625,000
Repayment of other long-term debt is an expenditure in the funds but is not an expense in the SOA.	1,121,000
Compensated absences are reported as the amount earned in the SOA but as the amount paid in the funds.	1,607,703
Change in net position of governmental activities - Statement of Activities	\$ 361,032

A. Significant Accounting Policies

1. Accounting Policies

The accounting policies of the San Miguel Consolidated Fire Protection District (District) conform to accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

2. Reporting Entity

The District's combined financial statements include the accounts of all its operations. The District evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the District's reporting entity, as set forth in GASB Statement No. 14, "The Financial Reporting Entity," as amended by GASB Statement No. 39 "Determining Whether Certain Organizations are Component Units", include whether:

- the organization is legally separate (can sue and be sued in its name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- · there is fiscal dependency by the organization on the District
- it would be misleading or cause the financial statements to be incomplete to exclude another organization

Based on these criteria, the District has no component units. Additionally, the District is not a component unit of any other reporting entity as defined by the GASB statement.

3. Basis of Presentation

a. Basis of Presentation

Government-Wide Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-Type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

A. Significant Accounting Policies (Continued)

Fund Financial Statements: The Fund Financial Statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major government funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

General Fund. This is the District's primary operating fund. It accounts for all financial resources of the District not accounted for and reported in another fund.

The Capital Reserve Fund is used to account for the acquisition and/or construction of major governmental general fixed assets.

The Uncompensated Leave Fund is used to reserve funds equaling the cash value of uncompensated absences.

The Vehicle Replacement Fund is used for fees collected that can only be used to purchase new vehicles.

Non-Major Governmental Funds:

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes. The following special revenue funds are utilized by the District:

The Budget Stabilization Fund is used as a means to offset one-time revenue shortfalls within the General Fund.

The Fire Mitigation Fund is used for fees collected that can only be used to purchase capital assets directly related to growth.

Capital Projects Funds are used to account for all financial resources that are restricted, committed, or assigned to expenditure for capital outlay. The following capital projects funds are utilized by the District:

The Training Facility Fund is from a grant received that can only be used for the construction of a new training facility.

The Capital Facilities Fund is used for fees collected that can only be used to purchase, replace, or improve capital facilities.

b. Measurement Focus, Basis of Accounting

Government-Wide and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied.

A. Significant Accounting Policies (Continued)

Revenue from grants, entitlements, and donations is recognized in the fiscal year in which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Government Fund Financial Statements: Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District does not consider revenues collected after its fiscal year-end to be available in the current period. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Propriety Fund Accounting," all proprietary funds will continue to follow Financial Accounting Standards Board (FASB) standards issued on or before November 30, 1989. However, from that date forward, proprietary funds will have the option of either 1) choosing not to apply future FASB standards (including amendments of earlier pronouncements), or 2) continuing to follow new FASB pronouncements unless they conflict with GASB guidance. The District has chosen to apply future FASB standards.

4. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated as of June 30.

5. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than October 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

These budgets are revised by the District's governing board and District Fire Chief during the fiscal year to give consideration to unanticipated income and expenditures.

Formal budgetary integration was used as a management control device during the fiscal year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object code. All appropriations lapse at fiscal year end.

A. Significant Accounting Policies (Continued)

6. Assets, Liabilities, and Equity

a. Deposits and Investments

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Deposit Insurance Corporation. As of June 30, 2013, the District had \$534,525 of uninsured funds.

The District maintains a majority of its cash in the San Diego County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The county is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et seq. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

Information regarding the amount of dollars invested in derivatives with San Diego County Treasury indicates the amount was less than 1% for the fiscal year ended June 30, 2013.

b. Stores Inventories and Prepaid Expenditures

Inventories are recorded using the purchase method in that the cost is recorded as an expenditure at the time individual inventory items are purchased. Inventories are valued at average cost and consist of expendable supplies held for consumption. Reported inventories are equally offset by a fund balance reserve, which indicates that these amounts are not "available for appropriation and expenditure" even though they are a component of net current assets. Inventories of the General Fund are immaterial and have been omitted from these statements.

The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditure during the benefitting period.

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Structures and improvements	10-50
Furniture and equipment	7-20
Vehicles and apparatuses	5-20

A. Significant Accounting Policies (Continued)

d. Compensated Absences

Accumulated unpaid employee vacation benefits and sick leave are recognized as liabilities of the District.

56 hour per week employees may accumulate sick leave up to a maximum of 2,912 hours. 40 hour per week employees may accumulate up to a maximum of 2,080 hours.

All excess sick leave above the established limits is to be converted to salary at the rate of three sick leave hours to one hour.

e. Deferred Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Deferred Revenue is recorded to the extent cash received on specific projects and programs exceed qualified expenditures.

f. Fund Balance Reserves and Designation

The District has adopted GASB Statement No. 54 (GASB 54), Fund Balance Reporting and Governmental Fund Type Definitions. This Statement defines the different types of fund balances that a governmental entity must use for financial purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balances categories listed below:

- Nonspendable, such as fund balance associated with revolving funds, inventories, prepaids, long-term loans and notes receivable, and property held for resale.
- Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- Committed fund balance classification includes amounts that can be used for the specific purposes determined by a formal action of the Board of Directors.
- Assigned fund balance classification are intended to be used by the entity for specific purposes, but do not meet the criteria to be classified as restricted or committed.
- Unassigned fund balance is the residual classification for the entity's general fund and includes all spendable amounts not contained in the other classification.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

When the District incurs an expenditure or expense for which committed, assigned, or unassigned amounts may be used, it is the District's policy that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts.

g. Interfund Activity

Interfund Activity results from loans, services provided reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation.

A. Significant Accounting Policies (Continued)

Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

h. Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on December 10 and April 10. Unsecured property taxes are payable in one installment on or before August 31. The County of San Diego bills and collects the taxes for the District.

i. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

B. Compliance and Accountability

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

Violation Action Taken

None reported Not applicable

2. Deficit Fund Balance or Fund Net Position of Individual Funds

Following are funds having deficit fund balances or fund net position at fiscal year end, if any, along with remarks which address such deficits:

 Fund Name
 Deficit Amount
 Remarks

 None reported
 Not applicable
 Not applicable

C. Cash and Investments

1. Cash in County Treasury:

The District maintains a majority of its cash in the San Diego County Treasury as part of the common investment pool (\$5,583,574 as of June 30, 2013). The fair value of the District's portion of this pool as of that date, as provided by the pool sponsor, was \$5,578,267.

C. Cash and Investments (Continued)

Assumptions made in determining the fair value of the pooled investment portfolios are available from the County Treasurer.

2. Cash on Hand and in Banks

Cash balances on hand and in banks (\$412,134 as of June 30, 2013) are insured up to \$250,000 by the Federal Deposit Insurance Corporation. As of June 30, 2013, the District had \$534,525 of uninsured funds.

3. Analysis of Specific Deposits and Investments

Cash and investments as of June 30, 2013, are classified in the accompanying financial statements as follows:

	Credit Quality Rating	 Fair Value
Cash in county treasury	Not applicable	\$ 5,583,574
Cash in banks	Not applicable	410,034
Cash on hand	Not applicable	 2,100
Total		\$ 5,995,708
Cash and investments as of June 30, 2013, consist Cash in county treasury	t of the following:	\$ 5,583,574
Deposits with financial institutions		410,034
Cash on hand		2,100
Total		\$ 5,995,708

Investments Authorized by the District's Investment Policy

The District's investment policy does not contain any specific provisions intended to limit the District's exposure to interest rate risk, credit risk, and concentration of credit risk. The District held no investments at June 30, 2013.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District held no investments at June 30, 2013.

C. Cash and Investments (Continued)

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code, which is investments in any one issuer (other than U.S. Treasury Securities, mutual funds, and external investment pools) that represent 5% or more of total District investments. The District held no investments at June 30, 2013.

Custodial Credit Risk

Custodial Credit Risk for investments is the risk that, in the event of the failure of a depository financial institute, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits. The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure governmental agency deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

The Custodial Credit Risk for investment is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools.

Investment Accounting Policy

The District is required by GASB Statement No. 31 to disclose its policy for determining which investments, if any, are reported at amortized cost. The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earnings investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one fiscal year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The District's investments in external investment pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the investment Company Act of 1940.

D. Accounts Receivable

Accounts receivable as of June 30, 2013, consist of the following:

	General Fund	Re	apital serve und	Und	compensated Leave Fund	Rep	ehicle lacement Fund	Gove	Other ernmental unds	Totals
Property taxes	\$ 19,356	\$	-	\$	-	\$	-	\$	-	\$ 19,356
Grant receivable	31,697		_				340	1.0	9-0	31,697
Other receivables	63,143		747		91		7,288		238	71,507
Totals	\$114,196	\$	747	\$	91	\$	7,288	\$	238	\$122,560

E. Interfund Balances and Activities

1. Due To and From Other Funds

Due to and from other funds at June 30, 2013, consisted of the following:

Due To	Due From	Amount	Purpose
General Fund	Other Governmental Funds	\$ 2,400,000	Short-Term Loans
General Fund	General Fund	7,620	Short-Term Loans
	Total	\$ 2,407,620	

2. Transfers To and From Other Funds

Transfers to and from other funds at June 30, 2013, consisted of the following:

Transfers From	Transfers To	 Amount	Reason
Vehicle Replacement Fund	General Fund	\$ 6,177	Budgeting Purposes
Vehicle Replacement Fund	Capital Reserve Fund	1,052,121	Budgeting Purposes
	Other Governmental Funds	8,446	Budgeting Purposes
	Total	\$ 1,066,744	

F. Long-Term Asset

1. Long-Term Asset Activity

Changes in long-term assets for the year ended June 30, 2013, are as follows:

Governmental Activities	Beginning Balance	Incre	eases	Decreases	Ending Balance	P	Amounts Paid Within One Year		
CalPERS Side Fund	\$10,028,444	\$		\$(1,253,556)	\$ 8,774,888	\$	1,253,556		
Total governmental activities	\$ 10,028,444	\$	-	\$ (1,253,556)	\$ 8,774,888	\$	1,253,556		

F. Long-Term Asset (Continued)

2. CalPERS Side Fund

On June 1, 2011, in order to refund the PERS Side Fund Obligations and thereby realize substantial cash flow savings, the District made a one-time payment of \$11,282,000 to the CalPERS Side Fund for the benefit of 9 years of future obligation payments at a reduced rate.

The future reduction of the long-term asset is as follows:

Year Ending June 30		F	Future Reductions
2014		\$	1,253,556
2015			1,253,556
2016			1,253,556
2017			1,253,556
2018			1,253,556
2019 - 2020			2,507,108
	Total	\$	8,774,888

G. Capital Assets

A schedule of changes in capital assets for the year ended June 30, 2013, is shown below:

Governmental Activities	_	Beginning Balances	/	Additions		eletions		Ending Balances
Capital assets, not being depreciated	1				•		•	0 000 500
Land	\$	2,093,520	\$		\$		\$	2,093,520
Total capital assets, not being depreciated		2,093,520					_	2,093,520
Capital assets, being depreciated:

Vehicles and apparatuses		8,279,100		-		(553,490)		7,725,610
Total capital assets, being depreciated		22,525,490				(553,490)		21,972,000
Less accumulated depreciation for:								
Structures and improvements		(5,624,898)		(262,829)		-		(5,887,727)
Furniture and equipment		(948,508)		(64,554)		-		(1,013,062)
Vehicles and apparatuses		(5,804,674)		(403,900)		553,490		(5,655,084)
Total accumulated depreciation		(12,378,080)		(731,283)		553,490		(12,555,873)
Total capital assets, being								
depreciated, net		10,147,410		(731,283)		-		9,416,127
Capital assets, net of depreciation	\$	12,240,930	\$	(731,283)	\$	-	\$	11,509,647

H. Long-Term Obligations

1. Long-Term Obligation Activity

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the fiscal year ended June 30, 2013, are as follows:

Governmental Activities	Beginning Balance	Incre	ases	Decreases	Ending Balance	Amounts Due Within One Year
Revenue Bonds payable	\$ 5,855,000	\$	-	\$ (625,000)	\$ 5,230,000	\$ 655,000
Public Property Financing	10,920,000		2	(1,121,000)	9,799,000	1,243,000
Compensated absences*	1,756,452		2	(1,607,703)	148,749	-
Total governmental activities	\$ 18,531,452	\$		\$ (3,353,703)	\$ 15,177,749	\$1,898,000

^{*} Because of the nature of compensated absences and uncertainty over when vacations will be taken, a statement of debt service requirements to maturity has not been presented.

The fund typically used to liquidate other long-term liabilities in the past are as follows:

Liability	Activity Type	Fund
Revenue Bonds Payable	Governmental	General Fund
Public Property Financing	Governmental	General Fund
Compensated Absences	Governmental	Uncompensated Leave Fund

In the government-wide financial statements, interest expense for the year ended June 30, 2013, was \$771,432 and is included in the functional expenses as a direct charge.

Revenue Bonds Payable

In October 2003, the San Diego Regional Building Authority (the "Authority") issued \$10,005,000 of Refunding Lease Revenue Bonds, Series 2003 (the "Bonds"). Proceeds of the Bonds will be used to provide funds to refund, on a current basis, the Authority's Refunding Lease Revenue Bonds, Series 1993A, and pay certain costs incurred in connection with execution and delivery of the Bonds. The refunding was undertaken to reduce total future debt service payments and to extend the life of the debt.

The Bonds are special obligations of the Authority, payable from and secured by Revenues of the Authority consisting primarily of payments to be made by the District, for the right to the use of certain real property and improvements thereon (the "Leased Property") pursuant to that certain Second Amended and Restated Lease Agreement dated October 1, 2003 (the "Lease Agreement"), by and between the District, as lessee, and the Authority, as lessor. The District has covenanted in the Lease Agreement to make the Lease Payments for the Leased Property as provided for therein, to include all such Lease Payments in each of its budgets and to make the necessary annual appropriations for all such Lease Payments.

The terms of the Refunding Lease Revenue Bonds call for installments of principal and interest payments up to \$887,725, annually. This includes interest ranging from 2.00% to 5.00% through January 2020. These Bonds are collateralized by land, structure and equipment.

H. Long-Term Obligations (Continued)

The annual requirements to amortize revenue bonds payable, outstanding as of June 30, 2013, are as follows:

Totals	D	5,230,000	<u> </u>	879,564	Φ_	0,109,504	
2019 - 2020 Tatala	Ф.	1,665,000	•	77,963	•	6,109,564	
						1,742,963	
2018		775,000		96,413		871,413	
2017		740,000		130,500		870,500	
2016		715,000		162,344		877,344	
2015		680,000		191,988		871,988	
2014	\$	655,000	\$	220,356	\$	875,356	
Year Ending June 30,		Principal		Interest	_	Totals	

3. Public Property Financing Corporation

On June 1, 2011, in order to fund the PERS Side Fund Obligations and thereby realize substantial cash flow savings, the District leased certain real property, together with all buildings, facilities and other improvements which are located thereon to Public Property Financing Corporation of California for an upfront rental payment of \$11,282,000, which is sufficient to fund the PERS Side Fund Obligation. The District will make 16 bi-annual payments with interest at 4.9% per annum.

The Loan will mature on July 30, 2019. Debt service requirements for this note payable are as follows:

Year Ending June 30,		Principal	_	Interest	Totals

I. Employee Retirement Systems

Benefit provisions and state statute and District policies establish all other requirements. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information.

Funding Policy

Active non-safety plan members are required to contribute 8.0% of their annual covered salary and the District contributes 16.567% of the annual covered salary. Active safety plan members are required to contribute 9.0% of their annual covered salary and the District contributes 23.006% of the annual covered salary. The District makes the contributions required of the District's employees on their behalf and for their account.

I. Employee Retirement Systems (Continued)

The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The contribution requirements of the plan members are established by state statute. The District contributions to CalPERS for the fiscal years ending June 30, 2013, 2012, and 2011, were \$843,079, \$1,648,646, and \$2,871,986, respectively, and equal 100% of the required contributions for each year.

J. Joint Power Agreements

1. Public Agencies Self Insurance System (PASIS)

The District entered into a Joint Powers Agreement (JPA) known as the "Public Agencies Self Insurance System" (PASIS), a self-insurance plan for workers' compensation insurance. The PASIS is governed by a board consisting of a representative from each member district. The board controls the operations of the PASIS, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district pays a premium commensurate with the level of coverage requested and share surpluses and deficits proportionate to their participation in the PASIS. The JPA is a separate entity which is independently audited.

2. Fire Agencies Insurance Risk Authority (FAIRA)

The District entered into a Joint Powers Agreement (JPA) known as the "Fire Agencies Insurance Risk Authority" (FAIRA), a self-insurance plan for general liability insurance. FAIRA is governed by an 11 member Board elected by a vote of the members. One seat is reserved for the highest premium member and one seat is reserved for an elected member from the State of Nevada.

The board controls the operations of the FAIRA, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in the FAIRA. The JPA is a separate entity which is independently audited.

K. Other Post-Employment Benefits

The District currently provides Other Post-Employment Benefits (OPEB) by making a contribution towards retiree health benefits based on the District-sponsored medical plan. Currently there are 87 retirees receiving the benefit, and 8 active employees that are either currently eligible for the benefit or are earning service credit for eligibility towards the benefit.

Plan Description

To be eligible for retiree health benefits, an employee must retire from the District and commence pension benefit under PERS (typically on or after age 50 with at least 5 years of PERS eligible service). The District's financial obligation is to provide a monthly contribution towards the retiree's continuation of health coverage through the CalPERS Health Program for the lifetime of the retiree or for a surviving spouse. The District's annual contribution is capped at the Kaiser Basic premium amount (\$828,972 in 2013). The detail plan provision is described below:

K. Other Post-Employment Benefits (Continued)

- Active employees are offered a choice of medical plans through the CalPERS Health Program under the Public Employees' Medical and Hospital Care Act (PEMHCA). The District offers the same medical plans to eligible retirees except once a retiree is eligible for Medicare, the retiree must join a Medicare HMO or Supplement Plan with Medicare being the primary payer.
- The District contributes to the retiree health coverage of eligible retirees and eligible surviving spouses. For employees who retired on or before November 1, 2011; the District's financial obligation is to pay for the retiree and eligible dependent coverage up to a monthly maximum which is equal to the Kaiser Basic family premium. For employees who retired after November 1, 2011, the District's financial obligation is to pay for the retiree and eligible dependent coverage up to a monthly maximum capped at 50% of the growth from the 2011 Kaiser Basic Plan based upon family status. Employees hired after January 1, 2012, the District's financial obligation is to pay the minimum amount required by law for health insurance coverage upon their retirement.
- An employee is eligible for the District contribution provided they are vested in their CalPERS pension benefit and commence payment of their pension benefit within 120 days of retirement with the District. Vesting requires at least 5 years of PERS eligible service. The surviving spouse of an eligible retiree who elected spouse coverage under CalPERS is eligible for the employer contribution upon the death of the retiree.

Funding Policy

The District has not established a trust account for this plan. The District funds the plan on a pay-as-you-go basis.

Annual OPEB Cost

The following table presents an estimate of the net other post-employment benefits based on an actuarial valuation for the subsequent three (3) years by the Epler Company at July 1, 2011. The actual net other post-employment benefit obligation will reflect actual contributions made for payment of retiree health benefits and expenses and to pre-fund.

Annual required contribution (ARC)	\$	2,162,947
Interest on Net OPEB Obligation		165,585
Adjustment to annual required contribution	<u></u>	(226,163)
Annual OPEB cost		2,102,369
Contributions made		(828,972)
Increase in OPEB Obligation		1,273,397
Net OPEB Obligation - beginning		3,311,708
Net OPEB Obligation - ending	\$	4,585,105

The District provided the 2011-2012 annual OPEB Cost analysis which is the most recently available information.

L. Subsequent Events

The District's management has evaluated events or transactions that may occur for potential recognition or disclosure in the financial statements from the balance sheet date through December 19, 2013, which is the date the financial statements were available to be issued. Management has determined that there were no subsequent events or transactions that would have a material impact on the current year financial statements.

SAN MIGUEL CONSOLIDATED FIRE PROTECTION DISTRICT OTHER INDEPENDENT AUDITORS' REPORTS SECTION JUNE 30, 2013

James A. Rotherham, CPA CEO & Managing Partner

Roy T. Hosaka, CPA Retired

James C. Nagel, CPA Retired

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors San Miguel Consolidated Fire Protection District Spring Valley, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining funds of San Miguel Consolidated Fire Protection District, as of and for the fiscal year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise San Miguel Consolidated Fire Protection District's basic financial statements, and have issued our report thereon dated December 19, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered San Miguel Consolidated Fire Protection District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of San Miguel Consolidated Fire Protection District's internal control. Accordingly, we do not express an opinion on the effectiveness of San Miguel Consolidated Fire Protection District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS
Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether San Miguel Consolidated Fire Protection District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Board of Directors San Miguel Consolidated Fire Protection District Spring Valley, California

Report on Compliance for Each State Program

We have audited San Miguel Consolidated Fire Protection District's compliance with the types of compliance requirements described in Article 13A of the Constitution of the State of California that could have a direct and material effect on the San Miguel Consolidated Fire Protection District's state program for the fiscal year ended June 30, 2013. San Miguel Consolidated Fire Protection District's state program is identified below.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for San Miguel Consolidated Fire Protection District's state program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Article 13A of the Constitution of the State of California. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the state program occurred. An audit includes examining, on a test basis, evidence about San Miguel Consolidated Fire Protection District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the state program. However, our audit does not provide a legal determination of San Miguel Consolidated Fire Protection District's compliance. In connection with the audit referred to above, we selected transactions and records to determine the Organization's compliance with the state laws and regulations applicable to the following items:

	Procedures In	Procedures Performed	
Description	Audit Guide		
GANN Limit Calculation	1	Yes

Opinion on State Program

In our opinion, San Miguel Consolidated Fire Protection District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the state program for the fiscal year ended June 30, 2013.

The purpose of this report on state compliance is solely to describe the scope of our testing of state compliance and the results of that testing based on the requirements of Article 13A of the Constitution of the State of California. Accordingly, this report is not suitable for any other purpose.
