Subject: [External] Fallbrook / Rainbow detachment

Dear Erica, and LAFCO Commissioners.

As a resident of the community since 2016, I again urge the passage of the Fallbrook and Rainbow detachment from the San Diego County water authority. The LAFCO staff recommendation consistently supports this position, and there is a negotiated fee to address the impact of this detachment

Your vote in support of this matter on 10 July addresses a need to keep this local matter in the hands of those directly affected. The customers of the Fallbrook and Rainbow should be the ones deciding whether or not the expected savings are a sound reason to detach.

Thank you for consideration, and please bring this multi-year request to a successful conclusion.

Sincerely,
Jack F Groshans
Fallbrook, CA
