## San Diego LAFCO History

Local Agency Formation Commissions (LAFCOs) were established in 1963 and are political subdivisions of the State of California responsible for providing regional growth management services in all 58 counties. LAFCOs' authority is currently codified under the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 ("CKH") with principal oversight provided by the Assembly Committee on Local Government. LAFCOs are comprised of locally elected and appointed officials with regulatory and planning powers delegated by the Legislature to coordinate and oversee the establishment, expansion, and organization of cities, towns, and special districts as well as their municipal service areas.

LAFCOs' creation were engendered by Governor Edmund "Pat" Brown Sr. (1959 – 1967) to more effectively address the needs of California's growing and diversifying population with an emphasis on promoting governmental efficiencies. Towards this end, LAFCOs are commonly referred to as the Legislature's "watchdog" for local governance issues. Guiding LAFCOs' regulatory and planning powers is to fulfill specific purposes and objectives that collectively construct the Legislature's regional growth management priorities outlined under Government Code Section 56301.

This statute reads:

---

"Among the purposes of the commission are discouraging urban sprawl, preserving open space and prime agricultural lands, efficiently providing governmental services, and encouraging the orderly formation and development of local agencies based upon local conditions. One of the objects of the commission is to make studies and furnish information to contribute to the logical and reasonable development of local agencies in each county and to shape the development of local agencies so as to advantageously provide for the present and future needs of each county and its communities."

---

LAFCO decisions are legislative in nature and therefore are not subject to an outside appeal process. LAFCOs also have broad powers with respect to conditioning regulatory and planning approvals so long as not establishing any terms that directly control land uses.

## San Diego LAFCO Duties & Responsibilities

The State of California delegates a broad range of growth management duties and responsibilities to LAFCOs in all 58 counties through the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000. This statute empowers LAFCOs to regulate and plan the establishment, expansion, and realignment (consolidations, mergers, etc.) of cities and most special districts and their municipal services with community needs. The statute similarly entrusts LAFCOs to achieve appropriate balance in accommodating new growth and development while protecting agricultural and open space resources from their premature conversion. This includes – pertinently – recognizing that providing housing for persons and families of all incomes is an important factor in promoting orderly development and essential to the social, fiscal, and economic well-being of the state. Additional details follow.

### Regulatory Responsibilities

LAFCOs' principal regulatory responsibility date back to 1963 and involves approving or disapproving all jurisdictional changes involving the establishment, expansion, and reorganization of cities, towns, and most special districts in California. LAFCOs are also tasked beginning in 2001 with overseeing the approval process for cities, towns, and special districts to provide new or extended services beyond their jurisdictional boundaries by contracts or agreements. LAFCOs also oversee special district actions to either activate new service functions and/or classes or divest existing services. LAFCOs generally exercise their regulatory responsibilities in response to applications submitted by affected agencies, landowners, or registered voters. Recent amendments to State law also authorize and encourage LAFCOs to initiate jurisdictional changes to form, consolidate, and dissolve special districts consistent with community needs. A summary of all regulatory responsibilities follows.

- Incorporate cities and form special districts
- Annex and detach lands to cities and special districts
- Activate or deactivate special districts' service powers
- Consolidate two or more cities or special districts into one
- Merge special districts into cities
- Disincorporate cities and dissolve special districts
- Authorize cities and districts to provide new or extended services outside their boundaries by contracts

### Planning Responsibilities

LAFCOs inform their regulatory actions through two central planning responsibilities: (a) making sphere of influence determinations and (b) preparing municipal service reviews. Sphere determinations have been a core planning function of LAFCOs since 1971 and serve as the Legislature's version of "urban growth boundaries" with regard to cumulatively delineating the appropriate interface between urban and non-urban uses within each county. Municipal service reviews, in contrast, are a relatively new planning responsibility enacted as part of the comprehensive rewrite of LAFCO law in 2001 and intended to inform – among other activities – sphere determinations. The Legislature mandates, notably, all sphere changes as of 2001 be accompanied by preceding municipal service reviews to help ensure LAFCOs are effectively aligning governmental services with current and anticipated community needs. A summary of all planning responsibilities follows.

- Establish, amend, and update spheres of influence for all cities and most special districts thereby delineating areas eligible for annexation
- Regularly prepare studies to independently assess the availability, demand and performance of local government services

# ABOUT SAN DIEGO LAFCO

## Commission

San Diego LAFCO is governed by a 13-member "Commission" comprising county, city, special district, and public members. All Commissioners are appointed elected officials with the exception of the two public members. Commissioners serve four-year terms and divided between "regulars" and "alternates" and must exercise their independent judgment on behalf of the interests of residents, landowners, and the public as a whole. Commissioners are subject to standard disclosure requirements and must file annual statements of economic interests. The Commission has sole authority in administering its legislative responsibilities and decisions therein are not subject to an outside appeal process. The current Commission roster follows.

## Special Districts Advisory Committee

The Special Districts Advisory Committee was created in August 1971 by San Diego LAFCO and consists of 16 members collectively drawn from the 59 independent special districts in San Diego County. Members serve four-year terms and are appointed by the independent special districts through an election process administered by LAFCO staff. Committee rules also allow the Committee Chair to appoint members to fill unexpired terms as needed. The Committee is tasked with providing feedback – including recommendations – on germane topics to assist LAFCO in fulfilling its regulatory and planning functions. The Committee meets quarterly with its current roster provided below.

# Incorporated Cities

---

Cities operate with home rule established at the time of their incorporation with powers to regulate land use and other municipal services so long as there are no conflicts with State law. There are currently 18 cities in San Diego County with incorporation dates ranging from the City of San Diego on March 27, 1850 to Solana Beach on July 1, 1986. Twelve of the cities operate as “general-law” and follow prescribed standards set by the State with respect to their governance, finance, election, and other municipal activities. The other six cities operate as “charter-law” and empowered to establish their own standards through voters and highlighted by broader taxing authority as well as the ability to zone territory irrespective of general plan consistency.

# Special Districts

## DEPENDENT & INDEPENDENT

---

Special districts are separate local government entities that provide one or more municipal services within a specific geographic area – typically in an unincorporated community or collection of communities within a shared region. Most commonly, special districts in San Diego County provide water, wastewater or fire protection. Special districts are generally divided between two types of districts, enterprise districts (user charges) and non-enterprise districts (taxes and assessments) as well as independent and dependent. Independent special districts are defined as having a directly elected governing board whereas dependent special districts consist of an appointed governing board and frequently in the form of the board of supervisors or local city councils.
